

Low Voltage Replacement Breakers Roll-In Replacement Breakers

'The cost effective option to complete switchgear replacement'

Replacement for FP-25

Replacement for LA-1600

Replacement for DMB-50

Replacement for AK-2-25

Overview

- Meets ANSI C37.20.1 standards
- 635V LV power circuit breaker (air circuit breaker)
- Minimum feeder outage - just like swapping a breaker
- Virtually maintenance free
- Retrieve load current data remotely
- Operate breaker remotely through communications
- Complete phase insulation
- Full inspection of arcing chamber/main contacts possible
- Standard SD Pocket feature/Bluetooth communications
- Interchangeable with existing breakers - typically no cell modifications
